Subject: Letter of Recommendation for Antoine Smolar

To Whom It May Concern,

As the Founder and CEO of HELMO Rénovation, I am writing this letter to express my enthusiastic support for Antoine Smolar's application.

Antoine worked with us as a Project Manager **Intern** from June to August 2026. During his tenure, he played a pivotal role in driving high-impact initiatives that directly enhanced our digital presence and performance.

His primary responsibility was leading the end-to-end revamp and deployment of our new corporate website. Antoine successfully managed all phases of the project, including User Experience (UX) optimization, comprehensive technical web audits, Search Engine Optimization (SEO) strategy execution, and continuous web performance enhancement.

Beyond his technical proficiency and project management skills, Antoine consistently demonstrated outstanding professional qualities. He possesses an exceptional ability for quick self-learning and a strong proactive mindset. His efficiency, initiative, and dedication delivered tangible value to our business operations.

I am confident that Antoine will bring the same drive, autonomy, and adaptability to your organization. I recommend him without hesitation for any internship position he pursues.

Should you require any further information regarding Antoine's achievements or performance during his time with us, please do not hesitate to contact me.

Sincerely,

Rostom Halaima

Founder & CEO

HELMO Rénovation

English translation of a letter of recommendation written in French by SIRTOM de la région Flers-Condé. Translated by Antoine Smolar; the signed French original is available on request.

Messei, 18 March 2026

Subject: Letter of recommendation

Dear Sir or Madam,

Mr Antoine Jean SMOLAR completed an internship as part of his studies at SIRTOM de la région Flers-Condé (the waste-management authority of the Flers-Condé area) from 13 May to 12 August 2024.

During his internship, Mr Smolar notably:

- took part in preparing a response to a call for projects from ADEME (the French Agency for Ecological Transition) in order to obtain financial support;
- got to grips with and configured human-resources management software;
- took part in several communication projects aimed at the service's users, on waste sorting and waste reduction.

Mr Smolar fitted in perfectly with the team at SIRTOM's head office. He showed great autonomy in mastering software that nobody in the organisation knew how to use, to the point of knowing it better than the vendor, and adapted it to the organisation's practices, particularly for schedule management. He trained the existing teams and carried out the tasks entrusted to him with great professionalism, notably by not hesitating to take initiative when necessary.

I recommend his application without hesitation, as he will be able to adapt to any situation.

Yours faithfully,

Anne MOREAU
General Director of Services (DGS)
SIRTOM de la région Flers-Condé

Letter of recommendation for Antoine Smolar

Dear Sir or Madam,

It is my pleasure to write a reference for Antoine Smolar, whom I got to know in my capacity as a Professor for the course 'Live Business Transition Case' during the academic year 2025/2026 at NEOMA Business School.

Antoine, who is currently enrolled in the Global BBA [Bachelor in Management] program, has demonstrated exceptional academic performance. Notably, his assessments in my class were among the very best in the course, reflecting a sophisticated grasp of the subject matter.

What truly distinguishes Antoine is his perseverance and his exceptionally clear vision for the future. He appears deeply committed and fully aware of what he wants to achieve, approaching his academic and professional goals with a level of intentionality that is rare.

Regarding his extracurricular involvement, while my direct insights are limited, I am aware that Antoine is actively involved in coding. His initiative to develop these technical, business-relevant skills alongside his primary studies further showcases his drive for continuous self-improvement and practical engagement.

I am confident that Antoine will make a valuable contribution to any future academic or professional endeavor. Accordingly, I strongly support his application and am certain that he possesses the motivation, skills, and dedication to excel.

Please do not hesitate to contact me should you require any additional information.

Kind regards,

Prof. Dr. Steven A. Brieger
Professor of International Business and Entrepreneurship
